

Scots Pine (*Pinus sylvestris*)

Maidenhair Tree (*Ginkgo biloba*)

Trees of interest

Trees are the most important element in any landscape. On the hospital site the trees can be divided into two categories: there are blocks of trees planted in groups to provide screening; and specimen trees.

Some are significant trees either because of the size species, or botanical interest.

1. **Tulip tree** (*Liriodendron tulipifera*)
Eastern North America
2. **Dawn Redwood** (*Metasequoia glyptostroboides*) South West China
3. **Scots Pine** (*Pinus sylvestris*) Europe, widespread
4. **Elm** (*Ulmus carpinifolia*)
South East England & Europe
5. **Holm Oak** (*Quercus ilex*) Mediterranean
6. **Sweet Gum** (*Liquidambar styraciflua*)
South East USA
7. **Medlar** (*Mespilus germanicus*)
South East Europe to Iran
8. **Indian Bean** (*Catalpa bignonioides*)
South East USA
